

# ASPOCOMP in Brief

Aspocomp develops and sells PCB manufacturing services. Our seasoned professionals help customers to create the most optimal PCB designs, both in terms of performance and cost. Our trimmed production lines produce the most challenging designs with the shortest lead-times in the industry. Our volume supply services offer cost-efficient access to all PCB technologies.

A printed circuit board (PCB) is the principal interconnection method in electronic devices. PCBs are used for electrical interconnection and as a component assembly platform in most electronic applications. Aspocomp's PCBs are used in many applications, such as telecommunication networks and devices, automotive electronics, security and medical systems, chipset development and industrial automation.
