

Aspocomp in Brief

A printed circuit board (PCB) is used for electrical interconnection and as a component assembly platform in electronic devices. Aspocomp provides PCB technology design, testing and logistics services over the entire lifecycle of a product. The company's own production and extensive international partner network guarantee cost-effectiveness and reliable deliveries.

Aspocomp's customers are companies that design and manufacture telecommunication systems and equipment, automotive and industrial electronics, and systems for testing semiconductor components for security technology. The company has customers around the world and most of its net sales are generated by exports. Aspocomp is headquartered in Espoo and its plant is in Oulu, one of Finland's major technology hubs.
